

PREMIUM DEODORIZER ADDITIVES FROM BRIDGEPOINT SYSTEMS

Bridgepoint Systems advanced deodorizers were developed using field and olfactory research to create scents that customers found to be not only pleasing, but would also provide an invigorating, or calming scent for hours. Research shows that our sense of smell creates memories that last longer than memories created through touch, hearing or even sight! As a cleaner, you want your customer to have a positive memory of their cleaning. A pleasant deodorizer does just that, and is the secret weapon kept in the toolbox of every professional cleaner.

For use on carpet, upholstery, laundry and general space deodorizing, The deodorizers are safe to use on almost all surfaces and contain no oxidizing or bleaching agents. Add them to virtually any cleaning compound for a pleasing fragrance.
