

UltraShield 3000 Aerosol Dispenser

Metered Air Care Systems

Description:

81% of washroom patrons feel a fresh-smelling washroom is a sign of a well-maintained washroom. Because even the cleanest washrooms are susceptible to unavoidable odors, discreet and effective air freshening systems are essential. Cascade Air Care Systems combine the industry's most reliable dispensing technology with fragrances designed to meet the diverse needs of the away-from-home washroom, effectively eliminating odors and leaving the washroom with a clean, fresh fragrance.

The Cascade UltraShield 3000 aerosol dispensing system delivers power, performance and flexibility. It is part of coordinated suite of washroom products. The smart chip technology maximizes odor control effectiveness for 30 to 168-days.

LCD model features flexible programming options of:

- 12-hours/24-hours per day
- or 5-days, 6-days or 7-days per week

LCD includes visual battery gauge and patented days to refill indicators

Sleek, compact high performance aerosol system

Proactive display notifies users when to change the refill and battery.
