FK-MOSKI20

Covers up to 3200 sqm

20L

BIODEGRADABLE

LONG-LASTING ACTION

CHLORINE, PHOSPHATE & ACID FREE

PROGRESSIVE CLEAN

ECONOMICAL

DOUBLE STRENGTH FORMULATION

Algae, Mould, Moss & Lichen Control

Easy to use and effective agent that controls moss, mould, mildew, lichen and algae growing on most exterior hard surfaces. Popular 'wet and walk' type product.

APPLICATION

EXTERIORS: Most hard surfaces where mould, moss, fungi & yeast are present

DIRECTIONS

INITIAL APPLICATION: Use at a ratio of 1:4 (20% solution, 200mls per litre) with cold potable water.

SUBSEQUENT APPLICATIONS: Use at a ratio of 1:20 (5% solution, 50mls per litre).

Spray onto surfaces, and leave. For best results allow a dry contact time of at least 3 hours.

Most surfaces do not require rinsing although some aged painted surfaces may require a rinse to avoid streaking. Best applied first thing in the morning or last thing at night onto a cool surface to minimise evaporation with no rain expected for 12 hours.

SAFETY

- Read and follow the instructions carefully.
- Keep out of reach of children.
- Keep pets away until the treated area is dry.
- Do not breathe mist, vapours or spray.
- Wear protective clothing, gloves and eye/face protection.
- Wash hands thoroughly after handling.

Surface Suitable

- Driveways & Paths
- Wooden Decks
- Building Exteriors
- Fences
- Roofs
- Solar Panels
- Outdoor Hard Furniture

Materials

- Concrete
- Brick & Masonry
- Pavers
- Stones
- Metals
- Plastics
- Stucco
- Outdoor Tiles
- Timber & Hard Wood
- Vinyl
- Canvas

Application & Intensity Guide

Heavy

Exterior moss & mould remover

Exterior hard surfaces

Effective, easy to use moss, mould, mildew, lichen, fungi, yeast and algae control.

INITIAL APPLICATION: 200ml Per 1L Water

SUBSEQUENT APPLICATION: 50ml Per 1L Water

Properties

pH Level

pH 11.0 (@100% Solution)

DANGER

Group Standard: HSR002526 - Cleaning Products (Corrosive) Group Standard 2020
Harmful if swallowed.
Causes severe skin burns and eye damage.
Very toxic to aquatic life.
